The number of instalments, the selection of the due month and the insurance contribution interest rate affect the contribution. Kela's allowances are determined based on the self-employed person's annual earnings. Lower limit of belonging to the unemployment cover: YEL income at least 14,803 €/year. The earnings-related allowance presented in the table requires membership in Yrittäjäkassa and fulfilment of the work requirement. To receive the self-employed person's accident allowance, an entrepreneur must have a valid self-employed persons' accident insurance with a non-life insurance company. The table's allowance information is indicative. In the old-age pension estimate, the assumption is annual earnings-level growth of 1.5% in real terms. The pension estimate is based on valid legislation and it takes into account the impact of the life expectancy coefficient.
